Full Stack Developer

SUMMARY

Full Stack Developer with experience in web applications and microservices. Strong background in Spring Boot, Angular, and Next.js, combined with DevOps practices (Docker, Kubernetes, CI/CD). Currently pursuing a Postgraduate degree in Cloud Computing, fluent in English, with a proven track record of delivering MVPs and optimizing digital processes. Additionally, entrepreneurial experience in managing e-commerce operations, achieving an average monthly revenue of R\$130,000 through process automation and commercial strategies.

EDUCATION

Postgraduate in Cloud Computing (In Progress)

Universidade Pitágoras Unopar Anhanguera – Mai/2025 to Mar/2026

Bachelor's Degree in Information Systems

Universidade Paulista – Jan/2016 to Abr/2020

PROFESSIONAL EXPERIENCE

Frontend Developer | Search Price Soluções Tecnológicas Ltda. – Fev/2024 to Jul/2025

- Developed a responsive, mobile-first web application with Next.js
- Implemented dark/light mode and custom hooks for state management
- Integrated with Node.js API and continuous deployment on Vercel
- Applied best practices in accessibility, performance, and componentization
- Delivery of a functional frontend MVP, validating initial proposal of the product team.

E-commerce Manager | Self-owned Business – Jun/2021 to Jan/2024

- Managed sales on Mercado Livre, Shopee, Amazon, and Magalu
- Coordinated a team for customer service and logistics
- Created listings, issued invoices, and developed commercial strategies
- Process automation and strategic planning, resulting in an average monthly revenue of R\$130,000.

Junior Java Developer | *Foursys Projetos e Sistemas Em Informática Ltda. – Fev/2021 to Mai/2021*

- Developed REST APIs with Spring Boot for banking microservices
- Endpoints tested and documented in the development environment
- Integrated with Oracle and worked with Docker, SonarQube, and Bamboo
- Participated in Scrum and backend technical decision-making

Systems Technician | *BRQ Digital Solutions S.A. – Ago/2019 to Fev/2020*

- Maintenance and support of Itaú Unibanco's legacy system
- Execution of tests to validate functionalities and identify defects
- Enhancement of development techniques through courses and training

IT Intern | *Itaú Unibanco S.A. – Jun/2018 to Dez/2018*

- Supported the Mobile Engineering change cycle
- Analyzed KPIs, crashes, and reports
- Used tools such as GitLab, Jenkins, Splunk, AppDynamics and Crashlytics

TECHNICAL SKILLS

Backend: Java, Spring Boot, Spring Security, JWT, OAuth 2.0, Kafka, RabbitMQ

Frontend: Angular, Next.js, React, Tailwind CSS, TypeScript, JavaScript

DevOps: GitHub Actions, Jenkins, Bamboo, Docker, Kubernetes

Databases: MySQL, PostgreSQL, SQL Server, MongoDB

Code Quality: JUnit5, Mockito, Jest, Cypress, Cucumber, SonarQube

VCS: Git, GitHub, GitLab, BitBucket, Codeberg

Agile & Design: Scrum, Kanban, Atlassian, Jira, UML, Figma

Tools: IntelliJ IDEA, VSCode, Postman, DBeaver

HIGHLIGHTS

- Postgraduate degree in progress in Cloud Computing and experience in CI/CD and DevOps
- Proven track record delivering functional MVPs and high-availability applications
- Strong business vision with experience as an entrepreneur and fluent in English
- Active GitHub portfolio featuring projects in Next.js, Spring Boot, and microservices
